Event Description

AHK Chile and the State of Bavaria Office for South America bring to you the Demo Day of the acceleration program “GreenTech Challenge 2026”, an initiative of the Federal Ministry for the Environment, Nature Conservation, Nuclear Safety and Consumer Protection to support German Startups and SMEs with a focus on sustainable solutions. German start-ups and SMEs will pitch their companies to a binational expert jury, which will select the winning teams. The winners will receive technology immersion agendas in Chile.
